2. APPROVED FOOD SAFETY CERTIFICATES AND REFERENCES

Approved Food Safety Certificates

Foodstuffs requires all food suppliers to hold one or more of the following food safety certifications (that is most appropriate for your business) to obtain FULL Regulatory Approval:

- **Food Control Plan (FCP) or National Programme (NP) Level 2/3** registered with the MPI/Council/Territorial Authority under the Food Act 2014. The Scope of your certification must be appropriate (including **wholesale** trading).
- **Risk Management Programme (RMP)** – registered with the MPI.
- **Wine Standards Management Plan (WSMP)** – registered certification or exemption with the MPI.
- **Fresh Produce** –NZGAP or GlobalGAP
- **Foodstuffs Importer/Broker Standard** covering importers, brokers/distributors and companies using a contract manufacturer who do not have this activity covered under the scope of their current food safety plan. For information contact Assured Food Safety and complete the online application form by accessing link: [Foodstuffs Approved Supplier Assessment Enquiry \(smartsheet.com\)](https://www.foodstuffs.govt.nz/food-business/running-a-food-business/food-control-plans/custom-food-control-plans/steps-to-a-my-food-plan/)

An Interim Regulatory Approval timeframe for prospective suppliers may be granted to gain an acceptable certification (as above). This will only be offered on receipt of the Compliance Pack, screen shot showing GS1 ProductRecallNZ registration/RecallReady status and (if appropriate) product label verification against the Food Standards Code. Interim Approval will not be provided to fresh produce suppliers or importers.

Foodstuffs reserves the right to revoke the Approval status of suppliers who allow their food safety certification or Compliance Pack to lapse without prior approval from Foodstuffs.

8. FRESH PRODUCE REQUIREMENTS

8.1 RESPONSIBLE SOURCING

The produce sector is known for labour rights risks. Foodstuffs requires all fresh produce, including prepared/ready to eat fresh products (e.g., chopped fresh pumpkin), suppliers to hold one or more of the following certifications and audits to demonstrate these risks are being managed and mitigated. This includes both New Zealand and imported fresh produce.

All fresh produce suppliers must be an active and audited member of one of the following schemes that demonstrate good social practice:

- NZGAP Social Practice Add-on
- GlobalGAP Risk Assessment on Social Practice (GRASP)
- Sedex SMETA pillar 2 or 4 audits
- Rainforest Alliance
- Amfori BSCI
- Fair Trade
- Fair Farms (Australian produce)

Suppliers are responsible for:

- Completing the recognised social audit scheme’s self-assessment questionnaire each year
- Following the social audit scheme’s inspection, audit, and corrective action plans
- Maintaining validity of the social audit scheme’s accreditation
- Completing renewed audits every 1-3 years
- Ensuring the current certificate, audit, and corrective action plan (where applicable) is uploaded to eXchange as evidence of compliance to our requirements.

It is important that the Supplier completes a renewed social practice audit ahead of the expiry date so the accreditation does not lapse.

If the supplier is an agent/wholesaler or processor/packer, we require that our **direct (Tier 1) supplier** cascades these requirements through the supply chain to the farm(s) supplying us with produce. We may request a list of these **indirect (Tier 2) produce suppliers** and evidence that they have met these requirements from time-to-time.

Please select which scheme you are registered to and using to demonstrate compliance and fill in the information below for each of your direct (Tier 1) sites supplying produce to Foodstuffs. One certification and audit may cover all of your sites, or you may have different certifications and audits for different sites supplying us – please complete for all sites as appropriate.
